SUBJECT: IRMO - SECOND MEF MEETING WITH AL ANBAR GOVERNOR

Classified By: MG ROBERT HEINE, IRMO DIRECTOR OF OPERATIONS, FOR REASON  
S 1.4 (B) AND (C).

1. (C) Summary. On September 18, Iraq Reconstruction Management Office (IRMO) Senior Consultants and the Second Marine Expeditionary Force (2MEF) Deputy Commander BG Williams met with Al Anbar Governor Mamoon. They discussed several issues including 1) the kidnapping and recent release of the governor's son; 2) the governor's concerns about the Independent Electoral Commission of Iraq's failure to respond to the governor's requests for improved security at polling places and for the residents of Anbar to be able to register to vote "to the last day"; 3) the delivery of critical health supplies to clinics; 4) coordination of three upcoming meetings (an "impromptu" meeting of the Provincial Reconstruction and Development Committee (PRDC), a meeting of the Transitional National Assembly (TNA) with the governor and members of the Provincial Council (PC), and a USAID-supported conference of PC members September 26-28); and 5) U.S. logistical support for the governor. End summary.

2. (C) In a cordial meeting in his Ramadi office, Governor M. Mamoon met with Brigadier General Williams, Deputy Commanding General of 2MEF; Marc Chrtien, Advisor for the Ministry of Industry and Minerals, IRMO; Frank Mahoney, MD, Advisor for the Ministry of Health, IRMO; Colonel Jimmie Jay Wells, IRMO Operations; Colonel Miles Burdine, 2MEF Sixth Civil Affairs Group; William Lovely, IRMO Provincial Program Manager; and other USG interlocutors.

GOVERNOR REGAINS KIDNAPPED SON  
-----

3. (C) USG officials expressed relief at the return of the governor's son who had been held eight days and was released on September 14. The governor said his son had not been harmed, but his vision was a bit off from being blindfolded the entire duration. He said his son's "spirit is broken." He has no proof of the identity of the perpetrators, yet he suspects the kidnapping was a politically-motivated criminal act initiated by "insiders" of the provincial government, not insurgents. He said he needs USG help to find and legally sanction the kidnappers.

ANBAR ELECTION SUPPORT CONCERNS OF THE GOVERNOR  
-----

4. (C) Discussions then turned to the Independent Electoral Commission of Iraq (IECI). Governor Mamoon was critical of the IECI. Mamoon said the IECI is not responding to his requests and will not experience a "successful process" without its doing so. He said the procedures the IECI has proposed are not good; for example, Anbar leaders had recommended polling sites including mosques, to which the IECI does not agree. The IECI's registration procedures are also wrong, Mamoon said. He wants registration open to the "last day". The IECI's abuse, he said, will "keep us separate." To make his point, he emphasized several times that "this is our right!" and "tell General Casey this". Regarding site security, he wants the polling sites to be secured by Coalition and Iraqi security forces, not other potential agents. The governor said he will "run again" in the December elections. (Comment. Governor Mamoon opposed IECI efforts to use tribesmen to secure voter registration sites and polling sites. The IECI did agree to extend voter

registration  
an extra week in Anbar after the Embassy brought Sunni Arabs  
to  
the IECI headquarters in Baghdad. The Embassy also arranged  
for  
Mamoon to meet the IECI in Ramadi two weeks ago. Each side  
has  
explained its point of view, but Mamoon and the IECI disagree  
on  
issues like security and voter registration. We are  
arranging a  
September 26 trip by the IECI to Fallujah as we try to build  
trust between Anbar and the IECI. End comment.)

#### HEALTH SUPPLIES ON THE WAY

15. (C) Dr. Mahoney explained that critical health equipment  
has  
arrived in Abu Ghraib and will soon be delivered to clinics  
in  
the province owing to the support of the 2MEF. He described  
the  
composition of the kits for different clinics and more robust  
shipments that will follow. Mahoney was asked to examine the  
eye of the Chairman of the PC, Sheikh Gaider, who came to the  
meeting late. Mahoney observed that the Sheikh has a genetic  
glaucoma. Mahoney will see what the US can do for him.

#### UPCOMING MEETINGS

16. (C) BG Williams and the group then discussed the  
coordination of three upcoming meetings. To "offset  
potential  
internal political opponents and for security purposes", the  
governor called a "surprise" PRDC meeting Monday, September  
19.  
He then planned to hold a meeting with visiting TNA members  
and  
the same PC members. He agreed to get the PC members  
together  
for a USAID-supported conference on constitutional matters  
and  
capacity building September 26-28.

#### SUPPORT FOR THE GOVERNOR

17. (C) Since Governor Mamoon is perceived as the leader with  
maximum gravitas in the province and he has no likely  
successor  
at the moment, and owing to the recent kidnapping of the  
governor's son, Mission Iraq is making significant effort to  
provide him USG support. Mamoon was having trouble with  
Thuraya  
phones the USG had provided him; these were reset. An  
armored  
car has been made available for his security, and others are  
on  
the way for his PSD.  
Khalilzad
